

# MONOCLONAL ANTIBODY DATASHEET

## Clone T6P1C7\*E7 against human CYP26C1

<b>Product Description</b>	Monoclonal antibody directed against human CYP26C1. Supplied as hybridoma supernatant (unpurified).
<b>Storage</b>	Store at -20°C. Avoid repeated freeze-thaw cycles.
<b>Intended Use</b>	For laboratory (research) purposes only.
<b>Isotype</b>	IgG1, k
<b>Clone</b>	T6P1C7*E7
<b>Immunogen</b>	Ovalbumin-conjugated synthetic peptide; <b>RWELATPAFP</b> (amino-acids 481-490 of human CYP26C1)
<b>B Cell Donor</b>	BALB-c mouse
<b>Fusion Partner</b>	Ag 8563
<b>Positive Control</b>	<b>IHC:</b> formalin-fixed, paraffin-embedded human liver sections. <b>Western blot:</b> mouse tissue lysates, or over-expression lysates.
<b>Cross-reactivity</b>	N/a

Applications		Recommended Usage Conditions (conditions should be optimised by the user)
<b>ELISA</b>	✓	Undiluted
<b>Western blot</b>	✓	1/2 – 1/5 dilution
<b>IHC</b>	✓	Neat; antigen retrieval: microwave 20 min @ 800W in 10 mM citrate buffer, pH 6.0
